TECHNICAL SKILLS

Languages: Python, C++, C#, Java, JavaScript, HTML/CSS, React, Swift

Frameworks: React, Flask, Node.js

Tools: Git, VS Code, Visual Studio, Docker, Firebase, Jupyter Notebook

Relevant Courses: Data Structures & Algorithms, Database Management, Web Programming, Mobile App Programming, Object Oriented Concepts, Programming Languages, Info Systems & Design, Adv App Dev

EDUCATION

3.25 GPA

Florida A&M University

Bachelor of Science in Computer Science

Tallahassee, FL

Aug. 2023 – May 2025

Florida A&M University

Bachelor of Science in Interdisciplinary Studies

Tallahassee, FL

Aug. 2019 – May 2023

EXPERIENCE

Software Development Intern

STARZ

June 2024 – Aug. 2024

Denver, CO

- Conducted 20+ end-to-end API tests, ensuring smooth integration across multiple services and catching 5+ integration issues before deployment.
- Refactored Docker files to support .NET 8, reducing container size by 20% and cutting deployment time by 25%, improving CI/CD efficiency.
- Performed manual QA and regression testing on internal tools and new sprint features, identifying and documenting 15+ bugs, leading to improved functionality.

Computer Systems Specialist

Florida Department of Agriculture and Consumer Services

Jan 2024 – Present

Tallahassee, FL

- Delivered first-level desktop support, resolving software and hardware issues for the Department of FNW, boosting IT infrastructure
- Enhanced operational efficiency and user satisfaction through proactive maintenance of desktops and laptops. Excelled in customer service and technical troubleshooting using Service Desk+ for ticket tracking and task execution. Streamlined IT operations, reducing response times and enhancing user experience.

PROJECTS

BlckByte | Swift, Plaid API, OpenAI API

Jan 2025 – Present

- Developing an iOS financial assistant that generates budgets, investment plans, and savings goals using Plaid API for secure financial data retrieval and OpenAI's API for personalized recommendations.

TicketAuto | Flask, Python, SQLite, HTML/CSS, JavaScript

Sept. 2024 – Present

- Developed a full-stack web-based ticketing system for FDACS using Flask and SQLite to automate ticket creation, tracking, and resolution. Implemented real-time notifications and updates using Flask-SocketIO. Integrated form submissions with dynamic ticket display, file uploads, and status updates in a user-friendly interface.

StudyPilotAI | React, Node.js, JavaScript

June 2024 – Present

- A full-stack platform leveraging OpenAI's API to generate personalized study plans, enhancing learning efficiency for students

CAMPUS INVOLVEMENT

Activities: Florida A&M University Football, National Society of Black Engineers, Colorstack, Codepath Technical Interview Prep
