PROJECTS

Portfolio

Explore a curated collection of my web development and software engineering projects that showcase my skills, creativity, and passion for building interactive and user-friendly digital experiences. These projects demonstrate my proficiency in front-end and back-end development, problem-solving abilities, and commitment to delivering high-quality solutions. Visit my portfolio to see examples of my work and the technologies I've mastered.

Calculator Web App

Designed and developed a responsive web-based calculator application using HTML, CSS, and JavaScript. Implemented essential mathematical operations, including addition, subtraction, multiplication, and division, to provide users with a user-friendly and efficient tool for solving mathematical equations. Utilized modern web technologies to create an interactive and visually appealing user interface.

RELEVANT COURSEWORK

- Object Oriented Concepts (C++)
- Data Structures
- Web Programming & Design
- Database Management
- Computer and Network Security
- Program Data & File Structures
- Discrete Structures
- Data Comm
- Public Speaking

PROFESSIONAL ATTRIBUTES

- **Passionate Developer:** Driven by a deep passion for coding, I consistently strive to deliver high-quality software solutions that meet user needs and business goals.
- **Detail-Oriented:** Meticulous attention to detail ensures the creation of bug-free code and a commitment to delivering error-free software.
- **Adaptable Learner:** Quick to adapt to emerging technologies and programming languages, with a demonstrated ability to learn and apply new skills effectively.

TECHNICAL SKILLS

- C++
- HTML
- CSS
- JavaScript

KEY SKILLS

- Communication
- Leadership
- Critical Thinking
- Teamwork
- Continuous Learning
- Organizational Skills

CLUBS & ACTIVITIES

- Florida A&M University Football
- National Society of Black Engineers
