TECHNICAL SKILLS

Languages: Python, C++, C#, Java, JavaScript, HTML/CSS, React
Frameworks: React, Flask, Node.js
Tools: Git, VS Code, Visual Studio, Docker, Firebase, Jupyter Notebook
Relevant Courses: Data Structures & Algorithms, Database Management, Web Programming, Mobile App Programming, Object Oriented Concepts, Programming Languages, Info Systems & Design, Adv App Dev

EDUCATION

3.25 GPA

Florida A&M University <i>Bachelor of Science in Computer Science</i>	Tallahassee, FL Aug. 2023 – May 2025
Florida A&M University <i>Bachelor of Science in Interdisciplinary Studies</i>	Tallahassee, FL Aug. 2019 – May 2023

EXPERIENCE

Software Development Intern <i>STARZ</i>	June 2024 – Aug. 2024 Denver, Co
<ul style="list-style-type: none">Maintained and updated existing projects, refining codebases to meet current standards and contributing to continuous software improvementConducted end-to-end API testing, ensuring seamless integration and optimal performance across multiple servicesPerformed manual QA and regression testing on internal tools and new sprint features, identifying and documenting critical bugs and ensuring seamless functionality across multiple web applicationsRefactored Docker files to support .NET 8, enhancing container efficiency and streamlining the deployment process	
Computer Systems Specialist <i>Florida Department of Agriculture and Consumer Services</i>	Jan 2024 – Present Tallahassee, FL
<ul style="list-style-type: none">Delivered first-level desktop support, resolving software and hardware issues for the Department of FNW, boosting IT infrastructureEnhanced operational efficiency and user satisfaction through proactive maintenance of desktops and laptops, and excelled in customer service and technical troubleshooting with Service Desk+ for ticket tracking and task execution, ensuring a safer, more efficient workplace	

PROJECTS

TicketAuto <i>Flask, Python, SQLite, HTML/CSS, JavaScript</i>	Sept. 2024 – Present
<ul style="list-style-type: none">Developed a full-stack web-based ticketing system for FDACS using Flask and SQLite to automate ticket creation, tracking, and resolution. Implemented real-time notifications and updates using Flask-SocketIO. Integrated form submissions with dynamic ticket display, file uploads, and status updates in a user-friendly interface.	
StudyPilotAI <i>React, Node.js, JavaScript</i>	June 2024 – Present
<ul style="list-style-type: none">A full-stack platform leveraging OpenAI's API to generate personalized study plans, enhancing learning efficiency for students	
DiamondForecast <i>React, Python</i>	April 2024 – June 2024
<ul style="list-style-type: none">Developed a machine learning model using historical MLB data to predict game outcomes. Integrated live MLB data API for real-time comparison and enhanced prediction accuracy. Utilized Python and Jupyter Notebook for data analysis and model development, with a React interface for real-time result display	

CAMPUS INVOLVEMENT

Activities: Florida A&M University Football, National Society of Black Engineers, Google Developers Student Club (Liaison)
